### **DETAILED ACTION**

Claims 38-40, 72-77 and 87-96 are pending as amended 8/18/08 in response to the restriction requirement of 7/16/08. Claims 32, 72 and 87 are independent.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 38-40 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

"The one or more cartridges" in claim 38 has no antecedent basis. The Examiner assumes that applicant meant 'one or more cartridge housings'.

#### ***Claim Rejections - 35 USC § 102/103***

1. Claims 38-40, 72-77 and 87-96 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Beeman et al (US 2004/0104157).

Beeman teaches (fig 2B below) a cartridge housing 35a attached to a socket on a manifold. This housing has a leg 35b with a portion 41 engaging the housing. The bottom portion of the leg (see the slot at 47) or the portion 41 can be used to tighten or loosen the housing portion. The leg including a generally triangular shape is not

patentable. The bottom of the leg in fig 2B can be made in triangular or any other shape.

There are plurality of housings, each housing has the same arrangement, and they have different filter elements. The collar 41 of the leg engages a threaded ridge on the housing. The leg also rotates in relations with the housing and the manifold, and can be used to tighten/loosen the housing to the manifold. The "wrench" in claim 87 does not carry any specific structure; the leg of the reference does engage the housing to the manifold.

Patent Application Publication Jun. 3, 2004 Sheet 3 of 8 US 2004/0104157 A1

FIG. 2B

Claims 38-40: The Examiner suggests replacing all occurrences of "one or more" with - - plurality of - - in these claims, and changing "cartridges" to - - cartridge housings - - to make them in condition for allowance. Other dependent claims may be made to depend from claim 38.
